
Amels SOLD

Price: SOLD

Still fresh from her 2014 refit TJ Esperanza offers the chance to acquire a magnificent timeless pedigree Dutch displacement Amels Superyacht in superb condition with a classic Terence Disdale Interior and equipped with zero-speed stabilisers.

Operated under MCA and ISM since new, she has been maintained, regardless of cost, to the highest standards and is one of the best kept superyachts for sale of her type and age on the market. Her striking exterior design was also created by the renowned Terence Disdale and was built with steel hull and aluminium superstructure. Her vast deck spaces and luxurious interior ensure this beautiful motor yacht offers stately cruising with the emphasis on comfort for all on board.

TJ Esperanza sleeps up to 12 guests in six staterooms. There is also room for up to 12 crew members to ensure the ultimate cruising experience. The full beam master suite is situated on the main deck and is decorated in calming white and cream colours. Soft lighting is used to create a relaxing atmosphere and emphasize the sense of space. The adjoining office area features an electric door (as does the master bathroom accessed via dressing room) so that each space can be accessed without awaking a sleeping guest (for example owner going to office or bathroom at night and not waking wife). The office has been modified to include considerable storage for files books and office supplies and is equipped with a LAN connection.

There are a further two elegantly lit double staterooms, two twin cabins and one single with Pullman berth, all finished to the same high standard. The single cabin with a pullman berth is situated near the owners cabin and is ideal for maid or nurse. Alternatively with pullman berth down it makes a super room for children.

The lounge area offers grand proportions and deluxe seating for all guests to relax together, leading into an elegant formal dining area. Rich woods, luxurious fabrics and demure lighting is used throughout to create flowing spaces with a balanced and sophisticated atmosphere.

The bridge deck salon area with bar is the ideal place to come together for evenings of entertainment with games or watching movies on the flat screen television. The bar is equipped with ice makers, fridges, bottle and glass storage so that hostess can serve guests in place. The polished walnut upper deck table has been modified so that it may be enlarged to 12 guests in total comfort.

Each of the bathrooms is finished in impeccable style with magnificent marble sinks and baths, retaining a modern yet luxurious feel.

This stunning motor yacht's huge sun deck area houses a large, modern Jacuzzi and ample U-shaped seating with table, perfect for enjoying the breath-taking views during the day. Also on deck is a shaded bar with seating and large sun lounging area, all designed with a clean and contemporary style.

The entertainment systems have been upgraded so that all rooms can watch a different TV channel with a choice currently of English speaking SKY or European Satellite stations in multiple languages.

The galley has been equipped by the chef with "no expense spared" and the dumb waiter adds to the ease of service. There are also two huge wine cellars on board.

She has a cruising speed of 11 knots and a maximum speed of 14 knots with a range of 5500nm.
